

Cacey Yu

Front-end Developer

✉ freoin1923@gmail.com

🤖 0409521281

Analytical and driven problem-solver with a knack for tackling complex challenges. Innovative and quick-learning Front End Developer proficient in building and maintaining responsive websites within the IT industry. Skilled in JavaScript, TypeScript, React.js, and API integration, alongside modern libraries and frameworks. Passionate about usability and creating reusable components. Possesses a working knowledge of Figma, and Scrum methodologies.

Skills

Programming Language

JavaScript (ES2015+),
TypeScript,
HTML, CSS, Sass, Markdown

Libraries & Frameworks

React, Next.js, Tailwind CSS,
Styled
Components, Ant Design,
Bootstrap5, React Query,
Axios, Zustand

Tools & Platforms

Git, GitHub, Storybook,
Docker, Webpack, Figma,
Zeplin

Soft

Communication, Teamwork,
Problem Solving,
Adaptability, Creativity

Employment

Front-end Developer • Funpodium Apr 2020 - Aug 2022 | Taipei, Taiwan

- Development
 - Designed and developed six microservices, incorporating both Role Service and User Service functionalities.
 - Integrated RESTful APIs seamlessly with Axios, enabling smooth data communication between the front-end and back-end systems.
 - Led the development of a robust Role Service to oversee hierarchical user permissions across microservices, resulting in fortified security measures and improved access control.
 - Utilized Cross-document messaging to facilitate secure communication between iframes and webpages, enhancing interactivity and functionality within web applications.
- Collaboration
 - Reviewing UI designs, designed and defined microservice API contracts using Markdown to ensure seamless collaboration and communication between frontend and backend teams.
 - For a period of six months, assumed the role of acting project manager while serving as a frontend developer, leading meetings and facilitating communication between the company's backend team, the backend team in Malaysia, and the design team to strategize project directions.
 - Led the development and maintenance of the company's official website in collaboration with internship team members.
 - Conducted code reviews and mentored internship developers, promoting best practices and code quality.
 - Utilized Cross-document messaging to facilitate secure communication between iframes and webpages, enhancing interactivity and functionality within web applications.

Education

Tamkang University Bachelor of Engineering in Computer Science and Information Engineering

Front-end Developer • Champ Sep 2022 - July 2023 | Taipei, Taiwan

- Designed responsive and user-friendly web interfaces, leveraging the power of Tailwind CSS.
- Designed and developed a comprehensive Next.js back-office application from inception to launch.
- Utilized React-Query to efficiently fetch, manage, and cache data, resulting in improved application performance.
- Work alongside product & project managers, designers, and other engineers to transform creative concepts into refined digital experiences at an agile (2 week) cadence
